RECEIVED

JUN 13 2014

DIV. OF OIL, GAS & MINING

Dear Mr. Baca:

I would like to send a letter of support for the American Sands Energy Project out in the East Carbon area of Carbon County.

I am under the understanding that this is a project that has been worked on for several years and is very close to becoming a reality.

As the Mayor of Wellington, and a life-time resident of Carbon County, I know and understand full well the importance of the economics of an endeavor such as this. With the Carbon Power Plant scheduled to close in 2015, we need more industry in our area to compensate for the loss of the jobs that this power plant, and our local coal mines provide to our citizens. Your directors message on the web-site says it all. Amen.

Please grant the American Sands Energy people the permission that they need to pursue their engagement on this project. We look forward to them coming.

Mayor Joan Powell

A handwritten signature in dark ink, appearing to read 'Joan Powell', is written over the printed name and address.
